### Description:

**Review** 'Few readers will fail to be moved by her stories, which are artfully used to examine some of the genuine societal dilemmas death presents, and to point up the ill effects that flow from the mixture of embarrassment, denial and avoidance with which we surround it.' TLS 'This is a taboo subject and makes absolutely gripping reading because it is one that, whether we like it or not, is going to matter enormously to each and every one of us.' GOOD BOOK GUIDE

**About the Author** Jennifer Worth trained as a nurse at the Royal Berkshire Hospital, Reading, and was later ward sister at the Elizabeth Garrett Anderson Hospital in London, then the Marie Curie Hospital, also in London. Music had always been her passion, and in 1973 she left nursing in order to study music intensively, teaching piano and singing for about twenty-five years. Jennifer died in May 2011 after a short illness, leaving her husband Philip, two daughters and three grandchildren. Her books have all been bestsellers.
