Description:

From a perch on his 40-foot pole (a gift from his father for swimming across the Ohio River), M.C. likes to slide his hand over the rolling mountains, smooth out the sky, and fluff up the trees to the south of Sarah's Mountain. To the north, though, no amount of pretending can make the whine of bulldozers and deep gashes in the mountain disappear. Ever since M.C.'s great-grandmother Sarah came here as a runaway slave, Sarah's Mountain has been home to the Higgins family. But now their home is threatened by the strip-mining that has left a giant slag heap perched precariously above their house. Will the two strangers who appear in the hills help M.C. save his family?

Reissued in celebration of its 25th anniversary, *M.C. Higgins the Great* has a power that runs deeper than the coal seam snaking through M.C.'s mountain. The intensity of family bonds, the depth of rural superstition, and the grim tragedy of environmental destruction weave together in a story that is as complex as it is beautiful. Not surprisingly, Virginia Hamilton, who has won every major award given to authors, received the Newbery Medal, the National Book Award, and the *Boston Globe/Horn Book Award* for this excellent novel. (Ages 13 and older) --*Emilie Coulter* --This text refers to an alternate edition.

From Publishers Weekly This rare bookwinner of the Newbery Medal tells of a young boy's fighting chance to save his family's home. Ages 12-up.
