#### Description:

*Written from an insider's view, this text provides an up-to-date and comprehensive examination of a field that is undergoing significant change.*

***Probation and Parole: Theory and Practice, 12e*** looks at the history of the field, how it moved from a focus on treatment/rehabilitation and the indeterminate sentence, toward a model based on

control/law enforcement and the determinate sentence. It offers a logical, student-friendly approach. Written by a former community corrections professional, the author provides an insider's view on how these changes affected the roles and responsibilities of probation and parole officers. In contrast to competing texts, the author weaves his experience with the practices of probation and parole agencies throughout the United States to provide a realistic, state-of-the-art view of the field. The use of cognitive behavior therapy and motivation interviewing, "broken windows"/community-based supervision, and the importance of evidence-based practice are examined.
